

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Product Name: ALLIED 15W40 CI-4 55GL

**Product Code:** AL055455

1.2. Relevant identified uses of the substance or mixture and uses advised against

**Recommended use:** Motor Oil **Recommended** Not applicable

restrictions:

1.3. Details of the supplier of the safety data sheet

Manufacturer: ALLIED OIL & SUPPLY, INC.

2209 S. 24th Street Omaha, NE 68108

**Information Phone:** 402-344-4343 800-333-3717

E-mail: sds@wd-wpp.com

1.4. Emergency telephone number

**Emergency phone number:** CHEMTREC: +1 (800) 424-9300

International: +01 (703) 527-3887

#### **SECTION 2: Hazards identification**

#### 2.1. Classification of the substance or mixture

Serious Eye Damage/Eye Irritation Category 2B

#### 2.2. Label elements

Signal Word Warning

**Hazard Statements** H320 - Causes eye irritation

**Precautionary Statements** 

**Prevention** P264 - Wash exposed areas thoroughly after handling.

**Response** P305+P351+P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact

lenses, if present and easy to do. Continue rinsing.

P337+P313 - If eye irritation persists: Get medical advice/attention.

2.3. Other hazards

Hazards not otherwise Avoid prolonged or repeated contact with used motor oil. Used motor oil has been shown to cause

**classified:** skin cancer in laboratory animals.

**Unknown acute toxicity (GHS-US)** 

## **SECTION 3: Composition/information on ingredients**

becaucity of the state of the s				
	Chemical Name	%	CAS#	GHS Classification
	Petroleum distillates, hydrotreated heavy paraffinic	90 - 99	64742-54-7	Acute Tox. 4; H332
				Acute Tox. 3; H331
	Petroleum distillates, solvent-refined heavy paraffinic	1 - 5	64741-88-4	Acute Tox. 4; H332
				Acute Tox. 3; H331
	Phosphorodithioic acid, mixed O,O-bis(sec-Bu and	0.5 - 1.5	113706-15-3	Aquatic Chronic 2; H411
	isooctyl) esters, zinc salts			Eye Dam. 1; H318
				Cl.: I:4 2. II215

Components not listed are not physical or health hazards as defined in 29 CFR 1910.1200 (Hazard Communication Standard).

## **SECTION 4: First aid measures**

#### 4.1. Description of first aid measures

**Inhalation** Remove to fresh air. If breathing is difficult, have a trained individual administer oxygen.

**Eyes** Immediately flush eyes with plenty of water for at least 20 minutes retracting eyelids often. Tilt the

head to prevent chemical from transferring to the uncontaminated eye. Get immediate medical

attention and monitor the eye daily as advised by your physician.

**Skin Contact** Wash with soap and water. Remove contaminated clothing and launder. Get medical attention if

irritation develops or persists. Seek medical advice if symptoms persist.

**Ingestion** Minimal risk of harm if swallowed. Do not induce vomiting. Seek medical attention immediately.

Provide medical care provider with this SDS.

#### 4.2. Most important symptoms and effects, both acute and delayed

**Symptoms** Not determined

## 4.3. Indication of any immediate medical attention and special treatment needed

**Note to Doctor** Aspiration during swallowing or vomiting may severely damage the lungs. If evacuation of stomach

contents is necessary, use method least likely to cause aspiration.

## **SECTION 5: Firefighting measures**

## 5.1. Extinguishing media

Suitable and Unsuitable Extinguishing Media:

Use alcohol resistant foam, carbon dioxide, or dry chemical when fighting fires. Water or foam may cause frothing if liquid is burning but it still may be a useful extinguishing agent if carefully applied

to the surface of the fire. Do not direct a stream of water into the hot burning liquid.

### 5.2. Special hazards arising from the substance or mixture

Fire and/or Explosion

Material may be ignited only if preheated to temperatures above the high flash point, for example in

**Hazards** a fire.

5.3. Advice for firefighters

Fire Fighting Methods and

Do not enter fire area without proper protection including self- contained breathing apparatus and

Protection

full protective equipment. Use methods for the surrounding fire.

**Hazardous Combustion** 

Products

Carbon monoxide, Smoke

#### **SECTION 6: Accidental release measures**

#### 6.1. Personal precautions, protective equipment and emergency procedures

**General Measures:** Exposure to the spilled material may be irritating or harmful. Follow personal protective equipment recommendations found in Section 8 of this SDS. Additional precautions may be necessary based on special circumstances created by the spill including; the material spilled, the quantity of the spill, the area in which the spill occurred. Also consider the expertise of employees in the area responding to the spill.

## **6.2.** Environmental precautions

Do not flush to sewer.

Avoid runoff into storm sewers and ditches that lead to waterways.

Remove from water surface by skimming or with suitable absorbents. Do not use dispersants.

Avoid runoff into storm sewers and ditches that lead to waterways.

## 6.3. Methods and material for containment and cleaning up

**Methods for cleaning up:** Prevent the spread of any spill to minimize harm to human health and the environment if safe to do so. Wear complete and proper personal protective equipment following the recommendation of Section 8 at a minimum. Dike with suitable absorbent material like granulated clay. Dispose of according to Federal, State, Local, or Provincial regulations. Used fluid should be disposed of at a recycling center. {EMSFORM\_06GHS\_CLEAN}

#### **6.4.** Reference to other sections

Follow all protective equipment recommendations provided in Section 8.

## **SECTION 7: Handling and storage**

#### 7.1. Precautions for safe handling

Harmful or irritating material. Avoid contacting and avoid breathing the material. Use only in a well ventilated area. Empty containers may retain product residues/ vapors. Use proper bonding and grounding during bulk product transfer.

### 7.2. Conditions for safe storage, including any incompatibilities

Store in a cool dry place. Isolate from incompatible materials.

### **Incompatible materials**

See Section 10.

7.3. Specific end use(s)

Motor Oil

## **SECTION 8: Exposure controls/personal protection**

8.1.	Control	parameters

None. OSHA PEL-Skin Notation

8.2. Exposure controls

**Engineering Measures**Use local exhaust ventilation or other engineering controls to minimize exposures and maintain

operator comfort.

**Respiratory Protection** Respiratory protection may be required to avoid overexposure when handling this product. General

or local exhaust ventilation is the preferred means of protection. Use a respirator if general room

ventilation is not available or sufficient to eliminate symptoms.

**Respirator Type(s)**None required where adequate ventilation is provided. If airborne concentrations are above the

applicable exposure limits, use NIOSH/MSHA approved respiratory protection.

**Eye Protection** Wear chemically resistant safety glasses with side shields when handling this product. Wear

additional eye protection such as chemical splash goggles and/or face shield when the possibility exists for eye contact with splashing or spraying liquid, or airborne material. Do not wear contact

lenses. Have an eve wash station available.

**Skin Protection** Wear protective gloves. Inspect gloves for chemical break-through and replace at regular intervals.

Clean protective equipment regularly. Wash hands and other exposed areas with mild soap and

water before eating, drinking, and when leaving work.

Gloves Neoprene, Nitrile

#### **SECTION 9: Physical and chemical properties**

### 9.1. Information on basic physical and chemical properties

Physical StateLiquidColorBrownOdorMild

Odor threshold Not determined PH Not determined Freezing point Not determined Boiling Point Not determined

Flash Point 222 Flash Point Method COC

**Evaporation Rate** Not determined

## **SECTION 9: Physical and chemical properties**

9.1. Information on basic physical and chemical properties

Upper Flammable/Explosive = 10

Limit, % in air

Lower Flammable/Explosive

Limit, % in air

Flammability (solid, gas) Not applicable

Vapor pressure < 0.20

Vapor Density Not determined

**Relative Density** 0.88

Solubility in Water Negligible; 0-1% **Octanol/Water Partition** Not determined

Coefficient

**Autoignition Temperature** Not determined **Decomposition Temperature** Not determined

Viscosity(°C) 115.8

9.2. Other information

Volatiles, % by weight 0.000000

## **SECTION 10: Stability and reactivity**

10.1. Reactivity No data available.

10.2. Chemical stability Stable under normal conditions.

10.3. Possibility of hazardous

reactions

Hazardous polymerization will not occur.

10.4. Conditions to avoid Temperatures above the high flash point of this combustible material in combination with sparks, open flames, or other sources of ignition. Moisture (will lead to product performance degradation).

10.5. Incompatible materials

10.6. Hazardous

decomposition products

Strong oxidizing agents Carbon monoxide, Smoke, Carbon monoxide, sulfur oxides, aldehydes, and other petroleum decomposition products in the case of incomplete combustion. Oxides of nitrogen, phosphorus,

calcium, copper, magnesium, sodium, and hydrogen sulfide may also be present.

## **SECTION 11: Toxicological information**

11.1. Information on toxicological effects

**Ingestion Toxicity** No hazard in normal industrial use. Estimated to be > 5.0 g/kg.

**Skin Contact** This material is likely to be moderately irritating to skin based on animal data. Can cause moderate

skin irritation, defatting, and dermatitis. Not likely to cause permanent damage.

Absorption Likely to be practically non-toxic based on animal data.

**Inhalation Toxicity** No hazard in normal industrial use. Likely to be practically non-toxic based on animal data. **Eye Contact** This material is likely to cause irreversible effects or corrosion to eyes based on animal data. Can

cause severe irritation. Eye contact may result in corneal injury. Symptoms may include discomfort or pain, excess blinking and tear production, with marked redness and swelling of the conjunctiva.

Non-hazardous under Specific Target Organ Systemic Toxicity Repeated Exposure category.

Temporary vision impairment (cloudy or blurred vision) is possible.

Sensitization Non-hazardous under Respiratory Sensitization category. No data available to indicate product or

components may be a skin sensitizer.

Mutagenicity No data available to indicate product or any components present at greater than 0.1% is mutagenic

or genotoxic.

Carcinogenicity Not expected to cause cancer. This product meets the IP-346 criteria of <3% PAH's and is not

considered a carcinogen by the International Agency for Research on Cancer.

Reproductive and No data available to indicate product or any components present at greater than 0.1% may cause

**Developmental Toxicity** birth defects.

Specific target organ Non-hazardous under Specific Target Organ Systemic Toxicity Single Exposure category.

toxicity-Single exposure

Specific target organ

toxicity-Repeated exposure

Aspiration toxicity Non-hazardous under Aspiration category.

## **SECTION 11: Toxicological information**

**Other information** No data available.

### **Agents Classified by IARC Monographs**

Benzene IARC Group 1
Not applicable IARC Group 2A
Vinyl acetate IARC Group 2B

#### National Toxicity Program (NTP) Status

Benzene Known Human Carcinogen

Not applicable Reasonably Anticipated To Be A Human Carcinogen

## **SECTION 12: Ecological information**

#### 12.1. Toxicity

**Acute Aquatic ecotoxicity:** Non-hazardous under Aquatic Acute Environment category. **Chronic Aquatic ecotoxicity:** Non-hazardous under Aquatic Chronic Environment category.

#### 12.2. Persistence and degradability

Biodegrades slowly.

#### 12.3. Bioaccumulative potential

Bioconcentration may occur.

#### 12.4. Mobility in soil

This material is expected to have essentially no mobility in soil. It absorbs strongly to most soil types.

#### 12.5. Results of PBT and vPvB assessment

No data available.

#### 12.6. Other adverse effects

Not determined

## **SECTION 13: Disposal considerations**

## 13.1. Waste treatment methods

#### **Disposal Methods**

Dispose of according to Federal, State, Local, or Provincial regulations. Recycle used oil.

### Waste Disposal Code(s)

## Waste Description for Spent Product

Spent or discarded material is non-hazardous according to environmental regulations.

#### **Contaminated packaging:**

Recycle containers whenever possible.

## **SECTION 14: Transport information**

**DOT Basic** Not classified as hazardous for transport (DOT, TDG, IMO/IMDG, IATA/ICAO).

**Description** 

## **SECTION 15: Regulatory information**

## **Chemical Inventories**

**TSCA Status** All components of this material are on the US TSCA Inventory or are exempt.

**U.S. State Restrictions:** Not applicable
